Premier Aberhart Dies At Coast

Premier Aberhart, who as head of the Alberta Social Credit government for nearly eight years, gained international fame, died in hospital at Vancouver at 5:00 a.m. Sunday (Pacific Time). He was 64 years old.

The funeral service will be held at Vancouver Wednesday afternoon at the Canadian Memorial church. Services will be conducted by Rev. G. Harrison Villett, formerly of Edmonton, and a personal friend of the premier for the last fifteen years.

Six Alberta cabinet ministers will attend the funeral, the only one remaining here being Hon. D. Bruce MacMillan, minister of agriculture. Under the constitution it is necessary that at least one cabinet minister be in the province at all times.

Tentative plans are being made for a memorial service to be held in Edmonton next Sunday, according to Mr. Low. This may be held on the legislative building grounds where thousands of people could be accommodated.

Mr. Aberhart became one of the outstanding advocates of monetary reform on this continent and at a convention in Winnipeg was chosen as national leader of the Democratic Monetary Reform Organization.

As minister of education, he took a leading part in improving the status of school teachers, giving them professional standing. He also took the lead in establishing the larger school units in the province and has been commended even by political opponents for his progressive policies in the field of education.

Mr. Aberhart won world-wide fame in fighting for farm hours relief, and introduced much sweeping legislation along this line. In speeches in the legislature he declared his firm determination to give debtor relief and aid the interests of the underprivileged who he contended were the victims of a financial system which did not provide adequate purchasing power.

Mrs. Aberhart and their daughters, Mrs. J. M. Cooper and Mrs. C. A. MacNutt, both of Vancouver, were at the bedside when the premier died.

Burial will be made at a Vancouver cemetery.

It is believed S.C. members will be called to an early caucus in Edmonton to select a leader. This gathering may be held next week which would be convenient for members returning from the funeral in Vancouver.

ANN WATT

Ann Watt's lovely voice has been heard on many CBC Vancouver programs. She is currently scheduled in a recital series on Mondays at 2:00 p.m. over stations of the western network.

Kinsella

Cpl. Wilfred Long was home for the week-end.

The Women's Institute meeting will be held at the home of Mrs. Lee on April 28. Guest speaker will be Mrs. Bruner of Wainwright.

Miss Lucille Marsh who has been working in Edmonton is home to spend some time with her parents.

A large crowd enjoyed a concert put on by the Quinte and Kinsella pupils Friday night. Part of the proceeds will go to the local Red Cross.

LAC. W. T. Carpenter spent a few days at home from Pearce where he has recently been stationed.

Mrs. J. F. Murray is in Calgary attending presbytery conference as Kinsella delegate.

Audrey Barker is in Edmonton visiting her mother who is getting medical care.

Miss Richardson is here from Calgary visiting her sister, Mrs. J. L. Smith.

Mr. and Mrs. Jack Corbett, of Edmonton, and Mr. and Mrs. O. Ness, of Lethbridge, were visiting Mr. and Mrs. Corbett on Sunday.

Ron Carpenter was home at the week-end visiting his mother Mrs. W. T. Carpenter.

A.F.U. NOTES

(From The Viking News)
Unprofitable Business

We have known all along that the individual responsibility of each member to his marketing concern, his farm organization, his church or his lodge is the thing that really makes these wonderful organizations live and grow.

If each individual making up the membership of a co-op, a church, a lodge, would meet his own individual responsibility, the way would be much easier and success would be much greater. We have watched very carefully those who accept their responsibility and those who attempt to shirk their responsibility and we have come to the honest conviction that it is a lot harder work to dodge one's responsibility than to shoulder his responsibility. It takes a lot of time to trample up excuses, establish alibies and pass the buck to the other fellow. In fact work of this character always yields poor returns and it will soon bankrupt a man both financially and morally.

It develops a sour, bitter disposition and personality and drives away friends. On the other hand working for a good cause is both pleasant and profitable. It helps a community. It helps individual neighbors, and it brings along with it a genuine happiness and satisfaction that the selfish man will never find. Try the easy and the best way and work for your own farmers' organization, the A.F.U.

If the war should end this year, are we organized sufficiently strong enough to win the peace, or are we prepared to go through another period of depressed prices such as 1930-40? Think it over.

"Food for Victory."

A. G. Bird, Sec'y.

EXPECT HEAVY DEMAND FOR POULTRY

Poultry is one meat that will not be rationed when meat rationing goes into effect in May. This means, say officials of the poultry division, department of agriculture, that the demand for poultry meat which is already large, will be substantially increased. With only limited supplies of poultry in cold storage, the increased demand can only be met by increased production.

The department points out that poultry meat can be quickly produced. Small chickens can be developed for market by proper feeding and management in two months. Light roasters up to a weight of 3½ to 4 pounds take four months to produce. In the past the usual practice of producers has been to rear one crop of chickens annually but last year many producers reared two crops, marketing the first early in the summer and the second for the fall and Christmas trade.

World of Wheat

by H. G. L. Strange

Director of the Searle Grain Co.
Early Summerfallow

Seeding will soon be completed and the farmer will have a short breathing spell from the arduous task of sowing his crops, particularly arduous and difficult this year because of lack of labor. If it can possibly be done, however, it certainly would be wise for those farmers who have land which is to be summerfallowed to do the work as quickly as possible. Land summerfallowed towards the end of May conserves much more moisture than summerfallow done later in the year. First the weather is cooler in May, and so less precious moisture is lost by evaporation when the land is ploughed or cultivated, and secondly early summerfallow gives a longer period during the summer for the soil to accumulate the summer rains which form the foundation for next year's crops.

The thought has been expressed that we may now be in a cycle of wet years, and that the preservation of moisture, therefore, does not matter so much. This, I suggest, is an entirely wrong view to take. The records of sixty past years clearly reveal that one or two drought years can occur at any time. No one can forecast the coming of either wet or dry years.

The Control of Wheat
At Hot Springs, Virginia, a number of countries are meeting to arrange for a supply of foodstuffs to those peoples whose lands have been over-run and who after the Peace will be short of food. This will undoubtedly meet with universal approval.

It is suggested by some, however, that an International Wheat Committee should be set up to control permanently after the war the production, marketing, distribution and sale of wheat. For my own part I think this would be a great disservice to our wheat growers and to consumers of bread.

History shows that no one has ever been wise enough to control such a complex international product as wheat. All efforts in the past have ingloriously failed, including a similar effort to that proposed, made in 1933 by the London Wheat Committee. All the countries which signed that 1933 agreement broke it within a short time as soon as they found it was not in their own interests to carry it out.

Artificial control of products ends in the curtailment of consumption, hence in the reduction of production, and so producers of wheat and consumers of bread alike suffer. It is to be hoped, therefore, that no permanent control over international wheat will be set up at Hot Springs.

R.C.A.F. News Notes
Thousands of airwomen have enrolled themselves proudly in the service of their country. Many are taking vocational courses which will fit them for more useful work now—and for better positions in the post-war period; for the Royal Canadian Air Force conducts the largest vocational training school in Canada.

In the Royal Canadian Air Force you get paid while you learn. Clothes, living quarters, food, medical and dental care—yes, even recreation—are provided.

When you join the Royal Canadian Air Force you make new friends; you meet interesting people. You travel; may even go overseas. But most important of all, you have the grand feeling of knowing that you are taking an active part in winning the war, by releasing a man tied to a ground job for active service in the air.

Be a modern career girl, get into air force blue now.

Send for a free booklet about airwomen, to the RCAF Recruiting Centre, Edmonton. You are under no obligation.

News of Our Boys

Don Savard has graduated as a wireless air gunner with the rank of Pilot Officer. He has been home on leave accompanied by Mrs. Savard and is leaving for Portage la Prairie this week where he will act as instructor.

Jas. Stead was home on leave last week-end.

Pte. Robt. Burr was home on short leave from Wetaskiwin last week.

Bill Whiteley returned to his air force duties at Calgary last Monday after being on leave at home.

Included among the boys who got spring leave to help with seeding operations at home are Gordon Whidden of Jarow and Sam Stead of Irma, both of whom are training in the RCAF in Edmonton.

Mr. M. Kuzyk returned to Irma last Tuesday from the university hospital where he received treatments for his spine injury while training with the RCAF at Macleod.

Donald McLaughlin, son-in-law of Mr. and Mrs. H. Miskimins of Aulandale, who trained in the RCAF at Mossbank, Sask., left for the east last Saturday.

W. J. Cody of the RCAMC at Camrose visited friends in Irma last week-end.

E. A. Allen was home on leave from Saskatoon this week.

Cpl. V. Bjork was home on leave last week from Wetaskiwin accompanied by Mrs. Bjork who is in the CWAC.

Canada's Fighting Navy means something special and personal to Canadians. We can all conjure up a mental picture of young boys and older men in navy blue with braided collars, and floppy trousers. They are a familiar sight on the streets of our cities and towns and a vital part of our war machine. Most of us realize vaguely that "a sailor's life is a hard one," but we cannot possibly realize how hard it really is without going through it ourselves. This, of course, is not possible for the majority of folks, so the next best way of telling the navy's story to Canada is through dramatic stories and movies, one of the best of which is the radio show "Fighting Navy" heard over CICA each Thursday at 7:30. This tells of a young lad, son of a naval commander who joins the navy as a rating. It is a thrilling, engrossing story, and one that you will want to listen to each week.

The June meeting of the W.I. will be held at the home of Mrs. Axel Peterson on Thursday, June 3. Please consult your yearly program as to who will be hostesses, raffle donor and the roll call.

FEEDERS DAY AT EDMONTON SATURDAY, JUNE 5th

The department of animal science, university of Alberta, has announced the annual Feeders Day to be held in the livestock pavilion, university farm, on Saturday, June 5, commencing at 10 a.m.

In view of the special demand at this time for the production of livestock and animal products, this year's program should be of special interest. The reports and discussions will be based on the results of experiments that have been in progress during the past year. These include a comparison of different grains and protein supplements for swine, the use of cover crop and home grown feeds for cattle finishing, the use of wheat for feeding dairy cows, together with the value of cobalt in the winter's ration for pregnant ewes.

Farmers and feeders will find it worth while to visit the university on June 5 and take part in the discussions.

Lunch will be available.

THAILAND MISSIONARIES

GUEST SPEAKERS HERE

Rev. and Mrs. Asher B. Case are guest speakers at the Christian and Missionary Alliance Convention being held here May 29 to June 2.

Rev. and Mrs. Case, missionaries to Thailand, have been serving in that country which is almost unknown to many here, since 1924. They have spent three terms of service in Bangkok, "the Venice of the East," then in Northern Thailand under the Presbyterian Board of Foreign Missions, and under the Christian and Missionary Alliance in Korat, East Thailand, so that with their three trips around the world, they will present a comprehensive view of the mission field.

When Pearl Harbor was bombed Mr. and Mrs. Case and their fellow missionaries were advised to flee to Burma but were arrested in a frontier jungle village. After some harrowing experiences in the local jail, they were taken to the concentration camp in Bangkok, where they were interned for six months and then were miraculously repatriated on the exchange vessel "Gripsholm" and arrived in New York, August 25, 1942, after a thrilling 18,000 mile journey.

Mr. and Mrs. Case will have many unusual stories to tell of their work in Thailand, of bitter persecution against the native Christians and missionaries, and of their experiences in the internment camp. One evening they will dress in costume and will present a village scene in which they will vividly portray the fears and superstitions of the Thai people. They will also show slides on life in Thailand.

Chocolate stains may be removed from table linen by sprinkling the stain with borax, then pouring boiling water through the linen.

Allow your curtains to dry thoroughly before you starch them. They will hold the starch better and keep clean longer.

vidly portray the fears and superstitions of the Thai people. They will also show slides on life in Thailand.

UNITED CHURCH

Paschendale—Public worship 11:15
Jesobery—Public worship 3:45
Irma—Sunday school 11 a.m.

Public worship 8 p.m.
A hearty invitation is extended to all.

Christian and Missionary Alliance

Missionary convention May 29 to June 2 at 8:30 p.m. Slides will be shown Saturday evening.

Sunday:
A tabernacle—3:30 p.m.
Ross school—1:30 p.m.
Orbinal school—11:00 a.m.

Rev. and Mrs. Case will be speaking at all services.
A cordial welcome to all.

ST. MARY'S ANGLICAN

Holy Communion at 2:30 p.m., Sunday, May 30.

SHARON LUTHERAN CHURCH

Divine service at 11:30.

GASSHOPPER FORECAST

FOR 1943

Maps have been distributed by the department of agriculture showing the districts of the province in which grasshoppers are expected to be abundant this season. These forecast map posters have now been posted in the office of all municipalities, district agriculturalists and grain elevators throughout the grasshopper area of Alberta.

The forecast shows three large areas where moderate outbreaks are anticipated. With these "moderate" areas are sections where "severe" conditions will develop unless exceptional growing conditions prevail. Every farmer would do well to check over the map to learn the forecast for his district. He should also read the useful suggestions respecting grasshopper control set out on this attractive poster.

Mr. J. L. Eaglesham, supervisor pest control, expects that the hatching of hopper eggs should become general about June 1 this year. He is anxious that farmers report any ominous evidence of heavy hopper populations to their municipal secretaries promptly. This will help the department of agriculture to get the control campaign into gear in time to overtake any menace anywhere in the province.

Allow your curtains to dry thoroughly before you starch them. They will hold the starch better and keep clean longer.

Chocolate stains may be removed from table linen by sprinkling the stain with borax, then pouring boiling water through the linen.

vidly portray the fears and superstitions of the Thai people. They will also show slides on life in Thailand.

NOTICE OF PREPARATION OF ASSESSMENT ROLL VILLAGE OF IRMA

Assessment Roll 1943

NOTICE is hereby given that the Assessment Roll of the Village of Irma for the year 1943 has been prepared and is now open for inspection at the office of the secretary-treasurer of the Village from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the assessed value placed upon any property, must within thirty days after the date of this notice lodge a complaint in writing with the secretary-treasurer of the village.

Dated this 17th day of May, 1943.

E. W. CARTER, secretary-treasurer.

Viking Items

AIR CADETS HAVE FIRST ANNUAL INSPECTION

On Thursday afternoon, May 20, the Malta Squadron, Air Cadets of Canada, No. 134, Viking, and the Holden Squadron No. 192 had their first official annual inspection, the ceremonies taking place on the fair grounds that had been prepared for the occasion.

The Viking school band, under the direction of bandmaster Mr. W. S. Elliott, preceded the squadrons to the drill grounds and played several selections before the arrival of the inspecting officer, Flight Lieutenant F. Ewart, of No. 4 Air Command, Calgary, on the grounds at prompt 2:30 p.m., when the General Salute was sounded by Bugler Bob Thunell in compliment to the officer.

During the inspection the two squadrons were most ably paraded by Cadet Acting Flight Sergeant L. Barish of the Malta Squadron. Flt. Lt. Ewart complimented them upon their smart appearance and general deportment.

The formal presentation of the new Cadet ensign for Squadron No. 134 was a colorful ceremony. The Cadets paraded smartly into their hollow square formation before the reviewing base and the flag was dedicated by Rev. Mr. C. R. Wragg, who after offering the ritual prayer gave the dedication lines as follows:

"I hereby dedicate to the cause of God and the 134th Squadron of the Air Cadets of Canada this Ensign to be ever to them an emblem of Youth, Honesty and Self-Discipline, reminding at all times of the principles and values for which they stand and their vital obligation to their nation as men, citizens and guardians of the future."

Flight Lieutenant Ewart addressed the cadets briefly and spoke of the importance of the training which was being provided through the air cadet league and the patriotic efforts of the local committee and officers of the squadron. He also spoke of the great work the pilots and air crews are doing in this war, and told them that if this war continues, many of the cadets would eventually take their places beside their brothers in the RCAF.

The presentation of the ensign was made by Mr. E. Frimmet, a veteran of the Great War, who spoke of the importance of keeping in mind the great traditions which the Ensign was an emblem of. As Flight Sergeant Barish received it and unfurled the Ensign, the officers and cadets stood at attention while the band played one verse of the national anthem.

It was then that orders for the march past the saluting base were given by Flying Officer H. C. Thunell, commanding officer of the Malta Squadron. Flight Lieutenant Ewart took the salute, and the parade moved off the drill grounds for dismissal. M. Lausten, adjutant during the ceremony's.

A fair sized crowd was present to witness the ceremonies, the business men kindly closing their stores for two hours in the afternoon so that who wished could attend. The public, the cadets and members of the band endured the mosquitoes with great fortitude.

In the evening the Malta Squad-

ron and the school band were present at similar ceremonies at Holden, where the officers of the Holden Squadron had charge of the parade, with Flt. Serg. W. Fleming in command for the ceremonies under direction of the commanding officer, Don Allan, and V. Nelson as adjutant. Rev. Mr. Gee-son of Holden dedicated the Ensign and Mr. W. J. Fleming presented the Ensign.

In the evening a large crowd gathered in the Holden community hall where air force films were shown after which a dance was held.

The majority of the cadets and officers of both squadrons will attend camp and take officers' courses during the summer months at RCAF stations in the province to enable them to become better informed as to the work that lies ahead.

At an enthusiastic meeting held Tuesday evening it was decided to hold the annual stampede, horse races and sports on Wednesday, June 30.

Committees were appointed for the various events and as interesting a program as possible will be arranged.

Mr. R. J. Darrah was re-elected president of the Viking Sports Committee and H. G. Thunell, secretary-treasurer.

Further details in next week's issue.

The next meeting of the sports committees will be held at the News office on Tuesday evening, June 1, at 8 o'clock to report progress.

serving overseas. Mrs. MacGregor read a short story which was very entertaining.

Tea was served by Mrs. Hardy, Mrs. Reishus and Mrs. Wemp, assisted by Mrs. Gilpin and Mrs. Chiswell.

The bingo party sponsored by the Institute was a real success and the committee in charge wish to thank Helen Streit, Lorraine Brown, Gordon Hafso, Leonard Pederson, Lindsay Thunell and Armand Cartwright for the peppy music; Mr. Bako, Art Horton and Dick Gares for their assistance at the bingo table and with the dance arrangements; Mrs. McLaren for having a barrel of water hauled; and Mr. Wragg and Jack Skaltitzky for bringing the dishes from the church hall and returning them.

The proceeds from this will also be used for the boys overseas.

The Women's Institute met last Thursday with 26 members and one visitor present. Mrs. Geo. Hoskins gave a very interesting paper on home economics and Mrs. Hutchinson spoke on the meat rationing and handed out recipes for meat substitutes. Arrangements were made to entertain the grandmothers June 17. Mrs. Comisarow and Mrs. Bollans are in charge of the program.

The treasurer reported receipt of \$61.00 in memory of the late Mrs. Cottrell, which will be used to send parcels to the local boys. "Gjest Baardsen," Norwegian, all dialogue, talking picture, is based on one of the most beloved legends of the 19th Century Norway, the story of a dashing and romantic "Robin Hood" who stole from the rich and gave to the poor, finally capturing the heart of a pretty maid as well as his king's pardon. Here is a rare opportunity to see the last film completed in Norway before the occupation—a memorable souvenir of an undying

people, whose love of freedom and justice is inscribed in this beautiful Norwegian film classic.

Brought to Sweden just before the Nazi invasion of Norway—this film has been more than a year in reaching America.

This celebrated film will be shown in the Viking Elks Community hall on Thursday, June 3, commencing at 8:30 p.m. Screen titles are in English, the script in Norwegian.

This film is shown under the auspices of the Sons of Norway Lodge and all proceeds will go to "Camp Little Norway" Toronto.

Admission prices are adults 50, children 25c. The public should not miss this opportunity of seeing this splendid film and assisting in a worthy cause.

Tpr. J. A. Bird, Tank Corps, arrived from the east last week to assist with the spring work on the home farm.

Cpl. M. Barker, of the CWAC, spent the week-end at home here with her sister, Mabel.

We hear that "Sandy" McDonald of the RCAF has become a pilot officer at a station somewhere in Ontario.

Cpl. Murray Clouston has been a visitor in the district with relatives and friends while home on a furlough.

The provincial department of agriculture is urging farmers to provide better summer pastures for dairy cattle, stated Mr. W. A. Moisey, district agriculturist, who made an official call here on Tuesday and conferred with local farmers and officials of the creamery.

Records show that milk production falls off about the last week of June and continues to decrease throughout the fall and winter months. The department is endeavoring to encourage farmers with dairy cattle to seed an acreage of fall rye and oats to provide pasture for their milking cows during midsummer and early fall when the decrease in milk production begins.

The department recommends seeding two bushels of oats and one bushel of fall rye. We understand that further information will be forthcoming shortly on this scheme.

Among the graduates from the Royal Alexandra school of nursing this spring was Miss Esther Rosene, daughter of Mr. and Mrs. P. E. Rosene. Miss Elsie Rosene and Mrs. Palmer Nordstrom attended the graduation exercises.

Mrs. Robt. Des Marais arrived from Edmonton Tuesday evening for a few days visit with her cousins, Mrs. Egan Jones, J. A. Horton and Mrs. Thunell. Mr. Des Marais is a U.S. transport pilot for the Northwestern Air Lines, operating from Edmonton to Alaska.

Home from Edmonton for the week-end were Misses Margaret McEachern, Doris Wick and Ardis Horton, all of whom are employed in the city.

Off on a fishing trip to Boyne lake over the week-end were Messrs. S. Lefsrud, Adolph Johnson, G. T. Loney and "Nobby" Clark. What luck they had no one has informed this scribe as yet.

Mr. and Mrs. D. Albertanson, of Chauvin, stopped for a short visit with friends here while on their way home from Edmonton on Monday.

Mrs. S. D. McLean and young son Danny returned to her home at Shelley, B.C., after spending a month here with her parents, Mr. and Mrs. W. D. Murdoch.

Make a plan of your flower garden, allotting a certain space to each plant and combine flowers that harmonize. With this plan you will find arranging your garden a very simple matter.

To prevent bacon curling, notch the edge before cooking with a knife or scissors.

HOLD HIGH THE TORCH OF FREEDOM

Borrowing for War Farming

Farmers all over Canada—grain growers, stock raisers, dairymen, fruit growers, vegetable gardeners, poultrymen—all kinds of farmers—are forcing production, fighting hard early and late to supply the enormous quantities of products demanded in the greatest of all wars.

In this "survival war" food plays a tremendous part, and the farmer is the dependable supplier, to

whom armed forces and civilians alike must look. The extra demands on farm production mean extra financing. The Bank of Montreal, ready always to co-operate with agriculture, is making special efforts at this time to help the farmer produce food for Canada and the United Nations.

If you need to borrow, see our nearest branch manager, who will understand your problems.

Irma (Sub-Agency): Open Tuesday and Friday

There goes your letter
to your boy...

IN IT, you put the home-spun bits of chat-chat you know he wants to hear . . . and in it you also put your heart. You mailed it with a prayer that it might find him safe and well.

Look—it's already on the way . . . speeding as fast as railway wheels can carry it.

Those singing wheels carry more—much more—than letters. They carry food for your pantry, coal for your furnace. They roll tirelessly that you

may live in comfort. They race across the great stretches of this Dominion with the men and materials of war, so that all of us may live in freedom.

Twenty-four hours a day our railway wheels are rolling, driven by an army of over 150,000 workers serving two major fronts . . . the home front and the fighting front.

"Keep 'em rolling" is their watchword, whether it's food or fuel, tanks or troops.

Or just your letter to your boy . . .

MEAT

RATIONING EFFECTIVE THURSDAY, MAY 27TH

After midnight May 26th, it is unlawful for a consumer to buy rationed meats and for anyone to sell rationed meats to a consumer except on surrender of valid ration coupons.

WHAT MEATS ARE RATIONED?

Beef, Veal, Pork, Mutton and Lamb.

WHAT MEATS ARE NOT RATIONED?

Poultry and Fish are not rationed. "Fancy" meats such as Heart, Tongue, Liver, Kidneys, Brains, Sweetbreads, and cooked sausages such as Wieners and Bologna are not rationed. Meat cuts containing 50% or more of bone such as spare-ribs, oxtails, and pigs' feet are not rationed.

HOW MUCH RATIONED MEAT AM I PERMITTED TO BUY?

An average of two pounds per week per person. You get less of meats containing no bone and more of meats containing considerable bone. See the chart of coupon values below.

WHAT COUPONS DO I USE WHEN BUYING MEAT?

The brown Spaz "A" coupons from your No. 2 ration book—the book you are now using to buy tea, coffee, sugar, and butter.

HOW OFTEN CAN I BUY MEAT?

Two coupons become good each Thursday. The first pair of No. 1 coupons become good May 27th. Each coupon is good for 3/4 of one week's ration.

HOW LONG DO COUPONS REMAIN GOOD?

Coupons becoming good before the 15th of a month are good until the end of that month. Coupons becoming good on or after the 15th of a month are good until the end of the following month.

DO I HAVE TO USE THE TWO COUPONS AT THE SAME TIME OR IN THE SAME STORE?

No. You can use a coupon at any time during the period in which it is valid, and in any store you wish.

CAN I BUY ONLY ONE KIND OF RATIONED MEAT WITH A COUPON?

No. You can buy whatever rationed meat is available and as many kinds as you want providing the coupon value is not exceeded.

MEAT COUPON VALUE CHART

GROUP A - 1/2 LB. PER COUPON

SMOKED MEATS

Back Bacon (Sliced and Rindless)
Side Bacon (Sliced and Rindless)
Side Bacon (Sliced Rind on)

PORK CURED

Boneless Back (Sliced, Not Smoked or Cooked)

COOKED MEATS

Butt (Boneless)
Ham (Boneless)
Any Uncooked Group "B" Cuts—when Cooked

GROUP B - 1/4 LB. PER COUPON

BEEF - FRESH or CURED

Chuck Roast or Steak (Boneless)
Flank Steak (Boneless)
Hind Shank Meat (Boneless)
Minute Steaks and Cube Steaks (Boneless)
Neck (Boneless)
Rolled Rib (Boneless)
Round Steak or Roast (Bone in)
Sirloin Tip (Boneless)
Stewing Beef (Boneless)
Tenderloin

LAMB or MUTTON - FRESH

Frontquarter (Boneless)

VEAL - FRESH

Cutlets and Fillets (Bone in)
Front Roll (Caul Wrapped—Boneless)
Leg Roll (Caul Wrapped—Boneless)
Round (Bone in)
Stewing Veal (Boneless)
Tenderloin

PORK - FRESH

Back (Boneless)
Belly (Boneless)
Butt (Bone in)
Ham (Boneless)
Ham, Centre Cuts (Bone in)

MEAT RATIONING AS IT AFFECTS FARMERS

Farmers may slaughter their livestock for their own consumption—but must turn in to the Local Ration Board at the end of each month, 1 coupon for each two pounds of their own slaughtered meat consumed on their own premises. Farmers need in no case surrender more than half the number of each month's valid coupons for such home slaughtered meat.

The remaining half of farmers' meat coupons may be used for ordinary retail purchases of meat, on the basis of coupon values as shown on the chart above. Farmers may supply meat from their own slaughterings to other farmers for consumption on their own farm premises. Local farmer "Beef Rings" are also permitted. Farmers providing meat to other farmers, or "Beef Rings", must collect meat coupons on the basis of 1 coupon for each two pounds of meat, gross weight. Self-addressed and stamped envelopes for mailing in coupons can be secured at your Local Ration Board.

CONSUMER MEAT IN LOCKERS

Before June 30th all consumers (including farmers) who store meat in lockers must declare in writing to the nearest Branch of the Ration Administration, the quantity of rationed meat they have in storage over and above eight pounds per person in the household. Declarations must be accompanied by sufficient coupons from the ration books of the locker holder and his household, to cover the quantity of declared stored meat at the rate of 1 coupon for each two pounds of any meat in the above groups. The number of coupons to be detached by the locker user need not exceed more than 50% of the total meat coupons in the possession of himself and his household. Locker users may retain for retail purchasing one of each similarly numbered pair of coupons.

RATION ADMINISTRATION

THE WARTIME PRICES AND TRADE BOARD

grams of organ music from Hall-fax have attracted much attention on CBC networks. He was chosen as the network's organist on the occasion of the royal tour in 1939.

Always have a bit of growing green about the house. The green of ivy, the red of berries, the spring color of tulips, narcissi and lilies will double the charm of any room.

Sprinkle the top of a casserole dish that calls for crumbs with light bran. It is fine and a change.

Banks and post offices are now selling war savings certificates. Every certificate you buy helps with the war effort.

Prinresses should be kept in a cool, light place where they get the early morning sun. They can not stand hot dry air. Water daily, but do not get water into the crown.

When greasing a pudding dish, sprinkle bran over the inside and shake off the loose bran, leaving the rest clinging to the dish. Bake the pudding as usual. It will have a nice crust.

Save all leftover frosting and use to top crackers, either plain or salted. These dressed up crackers go well in the lunch box or with afternoon tea.

If mud is tracked in on your rug do not try to remove it until the mud is dry. Then remove the dry dirt and rub the stain briskly with a clean, stiff brush.

Wash the leaves of a rubber plant with warm water and white soap suds. When dry rub each leaf with a cloth wet in vegetable oil.

A little cream brushed over the top crust of pie just before it is put into the oven will make it brown and flaky.

A few tablespoons of sweet red and green peppers, chopped, make cole slaw more attractive in looks and flavor.

Kinsella MD. A.F.U. Notes

Minutes of meeting of the municipal district of Kinsella, No. 424 held in the municipal office on May 11 at 10:30 a.m.

The meeting was called to order by the reeve who called on the secretary to read the minutes of the previous meeting.

It was moved by Bradley that the minutes be adopted as read. The following members of the council were present: J. Zelinski, A. Bradley, A. Firkus, L. Hagenson, T. Overbo, J. S. Shaw.

The financial statement was presented and on motion of Firkus same was ordered filed.

Moved by Bradley that the secretary write Dr. Hemming of Kilm asking him if he would act as medical health officer for townships 45-10, 45-11 and 45-12 W4.

Shaw moved that the court of revision consider appeals at the June meeting the date of which was set for Monday, June 7.

It was moved by Overbo that the secretary write the Northern Trust Co. of Calgary re the NW and SE 6-46-10-4.

The secretary was instructed to write the Holden and Wainwright school divisions re the appointing of a medical health officer.

Mr. Love, road contractor, was present at the meeting and discussed the matter of building roads in the municipality on a contract basis and agreed to go over the roads with each councillor.

Moved by Zelinski that the meeting adjourn for dinner at 12. The reeve called the meeting to order at 1 p.m.

Moved by Hagenson that the secretary write Mr. Roberts, secretary of the Alta. Assoc. of Municipal Districts, re the selling of grain delivered to the order of the municipality.

Moved by Overbo that lot 11 in Kinsella be rented to Mr. C. P. McAdams for one year at the rental of \$2.50 per year for a garden.

The secretary was instructed to have a notice inserted in the Irma, Viking and Sedgewick papers that farmers who had made application in 1941 and 1942 under the Wheat Acreage Bonus did not require to make application this year but had to make a final statement of claim not later than June 30. Ratepayers who did not make application in 1941 or 1942 but who intend to make application this year must submit a statement of their intention to do so not later than May 31.

Moved by Zelinski that the application for old age pension submitted by John Sowinski be recommended and that the pension be paid in full.

The secretary was instructed to write W. Rae of Irma re the S.E. 2-46-10.

Moved by Firkus that the bills presented be passed for payment.

Moved by Bradley that the next meeting be held on June 7.

There being no further business to come before the meeting it was moved by Shaw that the meeting adjourn.

LLOYDMINSTER BULL SALE

Entries this year to the Lloydminster Bull Sale on Tuesday, June 1, are the largest in history, 90 animals, 56 Shorthorns, 33 Herefords and 1 Angus. Many of the better herds in the west are entered.

The judging of the animals begins at 10 o'clock. Prof. J. McEwen of the university of Saskatchewan will be the judge.

The sale starts at 1:30 p.m. and J. W. Durno of Calgary will again this year be the auctioneer.

A district calf club show and sale is to be held in conjunction with the Bull Sale. Over sixty boys and girls from the Marwayne and Kitchcock clubs are bringing their calves. After the show is over the calves will be sold by auction.

For catalogue write to G. K. Ross, secretary-manager, Lloydminster Exhibition Association.

For a different flavor, drop a teaspoon of honey to the centre of corned apples when getting them ready to bake.

The texture of giddle cakes will be finer if the white of egg is separated from the yolk and added last to the batter.

Don't cook fish too rapidly. Seal it first, then cook or simmer it slowly to make it tender and appetizing.

A paper plate glued to the bottom of a paint can will catch all the drippings from the can and serves as a rest for the paint brush.

President of the A.F.U. Addresses Meeting

Mr. Jas. Jackson, president of the A.F.U., addressed the meeting of the local on Saturday, May 8, after complimenting the local and district for its splendid efforts towards co-operation. He outlined the aims and objectives of the A.F.U. The A.F.U. is non-political and does not wish to own any co-operatives, but at the same time stands fully behind any co-operatives that may be organized by any local. The A.F.U. is strictly what the name implies, a union organized for direct action with its objective parity prices for farm products. The speaker also stated that the government would not listen to a minority of farmers, therefore it was very essential and necessary that the farmers organize one hundred per cent. Then, and then only, can the farmer demand a fair share of the national income and a square deal. Also to avoid a repetition of the post war period of 1920 the farmer should be in the same position as the trade and other unions when it comes to settling and adjusting farm problems.

The president and directors of the A.F.U. are all dirt or overall farmers, the same as you or I, and are also short of land as the same as you and I. In addition they sacrifice a lot of time and money fighting for the cause of a square deal for you and I.

So why not back them up by joining the one farmers' union that is owned and directed by farmers, and there isn't a ghost of a chance of anyone but a farmer running the union or having any say whatever. Don't stand on the sidelines and watch the other fellow fight your battle. Dig in and pull your weight. Join the A.F.U. "Food for Victory"

A. G. Bird, Sec'y.

RAINFALL

How much water it takes to make a bumper crop is vividly brought out in a calculation made by J. B. Kinsella of the United States weather bureau. Comparing the excess of water that fell in the abundant crop year of 1942 with the scanty fall during the desperate drought of 1934, he says: "If it were possible to load this excess water on super tanks of 100 tank-cars each, carrying 100 tons of water, and transport them over a super railroad at the rate of two trains a minute without missing a single schedule, it would require more than 100 years to complete the shipment."

If doughnuts are put into a covered dish while warm they will stay fresh for some time.

By Dr. K. W. Neath Director, Agricultural Department North-West Lines Elevators Association

Farmers Will Profit

Local committees of farmers have been set up nearly all over the prairie provinces to work out ways and means of more efficient farm production with less labor and equipment. They are asked to produce less wheat and more of nearly everything else. We hope these committees will be permanent and not just for the duration. Mixed farming requires special knowledge, skill and experience. The committees can serve as very useful links between agricultural scientists and other farmers and, also, encourage the exchange of good ideas between farmers. This need not mean less wheat; but will enable us to produce as much on fewer acres.

In a recent issue of an Australian farm journal* the following editorial comment is made:

"The war is doing disturbing things to farming... Many, of course, are temporary expedients, not to be tolerated any longer than is necessary; others it must be admitted, represent long overdue advances in the industry."

"Most desirable of these is the formation of district agricultural committees, in which must be recognized not merely a convenience to the farmer through a crisis, but machinery ideally suited to its needs in time of peace."

These views apply with equal force to Western Canada. Our own committees, with the assistance of professional agriculturists, should, we think, play a major role in:

1. Encouraging agricultural production in relation to soil, climate and probable markets.
2. Long-term soil conservation measures.

The Merchant Navy

THE NAVY IS SOMETIMES called "The Silent Service," and this term describes well the great secrecy which surrounds all the operations of ships and sailors in time of war. It is generally known, however, that the British Navy has from the beginning had a vital part in defending the Allied cause. In addition, the service which the Merchant Navy has rendered in transporting men and material has been enormous. There is universal recognition of the gallant conduct of the men of this branch of the service since the beginning of the war, and we all know that but for them Britain and her allies would not be as successfully on the offensive as they are today. Some very interesting figures on the work of the Merchant Navy have recently been released in England, and they tell a part of the story of this phase of the war at sea.

Figures Show Gigantic Task

We are told that each year between twenty and thirty million tons of vital raw materials are brought to the factories of Britain by the ships of the Merchant Navy. In addition, the Merchant Navy has taken troops and equipment to every fighting front, and some figures are given to show the gigantic task which this represents. It is said that in 1942, one million tons of stores and one-half million men were sent around the Cape to various points. For the campaign in North Africa, the Merchant Navy transported over one million tons of stores and one-half million men before November 1942. Other interesting statistics reveal that there are about two thousand British Merchant ships at sea all the time, yet in spite of intense enemy attack by mines, U-boats and aircraft, only one-half of one per cent. of all these convoys fail to reach their destinations. Loss of life is also kept at a remarkably low figure. We are told that eighty-seven out of every hundred men are saved from ships which are damaged or sunk, and the loss of life in rafts and life boats is less than two per cent.

War Materials Carried Safely

In addition to carrying men and supplies for the British armies, the Merchant Navy has taken large quantities of war materials to other countries in the Commonwealth, and to Britain's Allies overseas. Between June, 1941, and December, 1942, 2,974 tanks and 3,080 airplanes were among the supplies shipped from Britain to Russia, and in that period nineteen large British convoys travelled safely to Russia over the dangerous northern route alone. Seven hundred officers of the Merchant Navy have been made members of the Officers and Commanders of the Order of the British Empire and 2,351 officers and men have received orders and decorations for gallant conduct. Among these are two hundred foreign nationals who are serving with the British Merchant Navy. The valuable contribution of this branch of the service to the successful conduct of the war has been summed up by a British writer in the following words: "Without the Merchant Navy, Great Britain would have come perilously near to starvation, her armies could never have been supplied, nor could the products of her factories ever have reached her allies overseas."

HEALTH LEAGUE OF CANADA

TRAINING IN EATING

AS CHILDREN GROW out of babyhood they enter a very important period in their lives, the one in which they acquire both the social and personal habits necessary to adult civilized life. Among other things to be learned at this time is the habit of eating the proper foods.

AS EVERY MOTHER knows this is sometimes a major problem. It should be approached with patience and ingenuity for it must be solved if the child is to grow up strong and healthy.

TWO SIMPLE RULES should always be observed. First, there should be no discussion among the parents and older children at the table, or in the presence of the child, of personal likes or dislikes in the matter of food. Second, as the child becomes interested in his food he should be told why each item is good for him.

FOR THE REST—introduce each new food in very small amounts until the child has developed a taste for it. A little difference in flavoring, a few grains of salt, mixing a new food with an accustomed one (as chopped spinach with mashed potato) may make all the difference in the child's reaction.

SOME CHILDREN like hot foods, some cold and a little juggling will sometimes save the mother a lot of worry and the child unnecessary correction.

A postcard request to the Western Division Health League of Canada, 111 Avenue Road, Toronto, will bring you a free copy of its authoritative Vitamin Chart.

Pet Or Pest?

The House Spider Is Said To Kill Flies And Moths

Now that spring house-cleaning has been completed, housewives will be particularly conscious of new cobwebs which appear. Cobwebs in houses are made by two species of spiders, according to T. B. Kurata, the spider expert of the Royal Ontario Museum. Although both kinds make an irregular, tangled, silken web in corners and crevices of buildings, one species is usually much more plentiful indoors and can well claim to be the Domestic Spider. Its body, which is slightly less than 1/4 inch long, varies in coloration from a dirty white, with a few dark spots, to almost black. It wraps its eggs in a dense silken case and hangs it from the web. This spider is quite harmless. In fact, Mr. Kurata would like to convince housewives that it is somewhat beneficial because it preys on insects such as the domestic fly and the clothes moth. He keeps one domestic spider in his own kitchen for observation. Most persons, however, will consider the dust-gathering webs a nuisance. According to your point of view, then, the domestic spider is either a pet or pest.

SHOE POLISH AIDS SCIENCE
Out of shoe polish and photographic developers, Charles C. Price, University of Illinois, has extracted chemicals which promise to aid in new methods of making plastics, including synthetic rubbers, he reported to the American Chemical Society.

Ten feet is a "length" in a horse race.

Roll your owners! go for Ogden's

Cow-catchers cleared the way for rolling stock in the old days of the West... Ogden's clears the tracks for rolling-your-own to complete satisfaction. It's a long-famous brand with a long-famous name—a blend of choice, ripe tobaccos—it's Ogden's!

Ogden's quality for pipe smokers, too, in Ogden's Cut Plug

Take Time To Play

People In Britain Do Not Neglect Opportunities For Relaxation

The Huron Expositor, Seaforth, says: Possibly no people in any country in the world have had their mode of living more greatly changed by the war than have the people of Britain.

In no other Allied country, at least, has the war taken as complete control over a man's time and his energies, and in no place in the world has that time and energy been more cheerfully surrendered to the country's need.

But the people of that country have not forgotten how to play and when the opportunity offers no people put their whole heart into it as the Britons do.

That fact was evidenced on Saturday, when 105,000 people attended the annual England-Scotland football game in Glasgow.

Rheumatic heart disease is said to occur more frequently among fair-haired people than among dark-haired people.

BRITISH COMMONWEALTH AIR TRAINING PLAN

LIST OF GRADUATES

The following students graduated under the British Commonwealth Air Training Plan from:

No. 12 Service Flying Training School, Brandon, Man. (Pilots)—
LAC J. R. Cox, Brandon, Man.
LAC N. E. Currie, Saskatoon, Man.
LAC S. Deane, Kelowna, B.C.
LAC W. Dick, Winkler, Sask.
LAC W. J. Gilmour, Dauphin, Man.
LAC P. Gulevich, Murders, Alta.
LAC H. J. Gwynn, Pelly, N.W.T.
LAC W. D. Harrison, The Pas, Man.
LAC T. M. O'Neill, Meek, Alta.
LAC M. L. Smith, Raymond, Alta.

No. 10 Service Flying Training School, Dauphin, Man. (Pilots)—

LAC H. A. Baker, Greyville, Man.
LAC H. E. Bratford, Holden, Alta.
LAC G. C. McKay, Yellowknife, N.W.T.
LAC G. W. Dodd, Kennedy, Sask.
LAC A. G. Fairless, Medicine Hat, Alta.

LAC W. A. M. Hallett, Fort Vermilion, Alta.
LAC J. T. Higgins, Whitewood, Sask.
LAC J. H. Gault, Dauphin, Man.
LAC P. J. Mair, Crossfield, Alta.
LAC G. C. McKay, Yellowknife, N.W.T.
LAC G. O. Freely, Medstead, Sask.
LAC H. F. Purvis, Holland, Man.
LAC R. F. Sellen, Oak Bank, Man.
LAC H. H. Szeener, Waskow, Alta.
LAC E. E. Storey, Brandon, Man.
LAC S. J. Waters, Morris, Alta.
LAC C. H. Crawford, Judas, Man.
LAC H. E. Wilson, Hirtle, Man.

LIST OF APPOINTMENTS

The following airmen have recently been commissioned in Canada it was announced by Royal Canadian Air Force Headquarters:

Air Bombers

Sgt. N. F. Beatty, Norwood, Man.
Sgt. W. E. Parsons, Fort William, Ont.
Sgt. T. R. Hodgson, Ingersoll, Man.
Sgt. W. A. Marjerrison, Chipewigan, Sask.

Sgt. E. A. Burton, Zealandia, Sask.
Sgt. J. A. Jackson, Dauphin, Man.
Sgt. D. P. Lamont, Minio, Man.
Sgt. R. K. Ollis, North Mahan, Sask.
Sgt. E. W. Hray, Nokomis, Sask.
Sgt. G. D. Eakins, Minnedosa, Man.
Sgt. C. H. Crawford, Judas, Man.
Sgt. A. J. Black, Carman, Man.
Sgt. F. P. Yarnish, Grandview, Man.
Sgt. G. K. Jamieson, Yorkton, Sask.
Sgt. Kenneth Crawford, Dauphin, Man.
Sgt. G. F. Caruthers, Girvin, Sask.
Sgt. J. D. Austin, Prince Albert, Sask.

Started Busy Trade

R.A.F. Man Taught Cairo Chef How To Make Pancakes

Some months ago, says the Sheffield Telegraph, a Sheffield man walked into a Cairo cafe and said, "I would like some pancakes, please."

The proprietor was puzzled. "What are pancakes? How are they made? Can you tell me?" he asked.

"Yes," replied the Sheffielder. "I'll show you how to make them if you will let me."

And so a busy trade in pancakes for the British troops was started.

The Sheffielder, we are told, was Corporal George Simpson, R.A.F.

Studies by the National Safety Council show that it takes nine times as long to stop your car on ice as it does on dry concrete pavement.

"Gee, Mom, that's GREAT!"

Youngsters and grown-ups, too, love Nabisco Shredded Wheat and snow-baked And it's right in line with what our Nutrition Authorities advise us to eat—whole grain cereals and fresh fruits.

Serve Nabisco Shredded Wheat—100% whole wheat in its tastiest form—it's nut-like flavor blends delightfully with milk and most of our Canadian fruits.

THE CANADIAN SHREDDED WHEAT COMPANY, LTD.
Niagara Falls, Canada

MADE IN CANADA — OF CANADIAN WHEAT

Used To Wide Vision

One Reason Why Prairie Boys Feel Affinity With Sea

Boys born in the prairie land unconsciously may feel an affinity with the sea. They are accustomed to the wide vision. The winds that sweep across the vast plains are in their blood and these winds, after all, are much like those that sweep across the mighty main. The sailors who hail from the prairies are more likely to feel at home on the waste of waters than lads who come from the cloistered valleys of Eastern Ontario, where hills and woodlands draw the horizons close. There is a fact of nature that links together the prairies and the sea, and that makes of many a young plainsman a potential mariner.

LEFT A RECORD

Paddy Flinucane was shot down over the English channel last July, but fighter pilots still watch in air-drome movies how he shot down enemy planes. The famed wing commander who held the D.S.O. and triple D.F.C. took films of his actual fighting through cameras fitted into the wings of his Spitfire.

Shows Rapid Growth

Unemployment Insurance Fund Increases by \$5,000,000 Each Month

Eric Stangroom, of Ottawa, chief insurance officer, said, in an interview that benefits paid out under the federal unemployment insurance fund total \$500,000, while the fund's earnings on bond interest and investments amounted to \$1,000,000.

There is \$120,000,000 in the fund and it was being increased at the rate of \$5,000,000 a month, he said.

TO SAVE POWER

Electric trains on the Euston-Broadcasting-Watford lines in suburban London now coast down grades to save power. Signals tell the drivers just where to turn the power off and authorities estimate this coasting saves nearly nine tons of coal daily.

FIGHTING... SIDE BY SIDE

... for a New World free from fear of war and want. He and hundreds of thousands of other fine Canadian men and women are daily giving and risking life and limb for our great cause. All we are asked to do is to work, save, do without what we don't actually need, and to LEND our money to back them up. Let's fight side by side with them—with Victory Bonds... for our sacrifice can never match theirs.
